

GK Machine Light Deprivation Greenhouses

GK Machine Greenhouse Division partners with State Greenhouse LLC to help Cannabis, Potteseitas and other customers with their special light deprivation growing needs. Providing high quality GK greenhouse structures that will give years of service for all season productivity.

- Rebuilding, recovering and reconstructing existing greenhouses to provide better weather protection
- Review and install better ventilation to existing greenhouses for more years of service
- Provide heater and all the supplies to set-up CO2 generating propane greenhouse heaters
- Install the right ventilation fans needed for the exact size of your greenhouse
- We deliver the greenhouse, coverings, accessories and provide set-up if needed.
- Payment in full prior to delivery
